

Osceola Clerk
of the Circuit Court
and County Comptroller

Honorable
Kelvin Soto, Esq.

Subdivision Condo Plat Index Microfilm Dept.

Section Land Index

If you need specific historical books for research, please visit the Clerks at the service windows for assistance. You may request any book you need for research purposes by presenting your driver's license, which will be held until the book is returned. Once you have finished your research and returned the book, your driver's license will be given back to you.

This reference book serves as a public index maintained by the Clerk of the Circuit Court & County Comptroller's Office, providing constituents with access to recorded subdivision plats, condominium plats, and related land records preserved on microfilm. Residents, title companies, attorneys, and researchers can use this index to locate and review official plat maps, property boundaries, and development records filed with the county. To view or obtain copies of specific records, constituents may submit a research request through the Clerk's Office or visit the department in person for assistance.
